The first stamp in the world was an English stamp. It was made in 1840 to pay the postage on letters going to different parts of the country.

Stamps are always interesting because they have pictures on them of the countries they came from; pictures of animals and birds living in jungles or on far-away islands; and pictures showing people dressed in their national costumes.

A stamp collection is not only a good textbook of history and geography. It is also a source of information on many other subjects.

Sometimes there are mistakes on stamps. For example, the St. Kitts and Nevis stamp, issued in 1903, showed Christopher Columbus looking through a telescope, an instrument which was unknown in his day. On a German stamp, issued in 1956 in commemoration of the composer Schumann, the music printed on the stamp was not written by Schumann. The people knowing music well saw this mistake at once.

Определите, верны ли следующие предложения. Выберите Т, если утверждение верно и F, если неверно:

- 1).The first stamp in the world was made in the USA. T F

Living in the City.

Living in the city has both advantages and disadvantages. From one hand, it is always easier to find a good job or to visit interesting places and exhibitions. There is also a good choice of public transport. From the other hand, the noise and pollution level in big cities is really high. As for me, I quickly become tired of it. I live in Krasnodar with my family. It's the biggest city in Krasnodar region and its capital. It is also the cultural, political and social center of the region. I should say that the city is really beautiful and many people from smaller towns and villages come to work

and study here. What they like about the city is that there are lots of interesting things to do and places to see. They also like job and study opportunities. There are lots of good universities and large companies in Krasnodar. There are also many ways to spend the weekends, for example, visiting a museum, going to the cinema or theatre, shopping, eating in good restaurants, going to concerts, etc. If people want to relax they go to parks for a walk or to read a book. In general, the city offers various opportunities and you never get bored. However, there are some disadvantages as well. Sometimes it's difficult to find a cheap apartment, so living in a city becomes very expensive. The roads are full of cars which pollute the air and the traffic is really heavy on weekdays. Public transport is also over-crowded. That's why many people leave the city at weekends. They try to relax in the countryside, where the air is much fresher and there isn't any noise from cars. We also go away each Saturday and Sunday to visit my grandparents.

Living in the City.

Living in the city has both advantages and disadvantages. From one hand, it is always easier to find a good job or to visit interesting places and exhibitions. There is also a good choice of public transport. From the other hand, the noise and pollution level in big cities is really high. As for me, I quickly become tired of it. I live in Krasnodar with my family. It's the biggest city in Krasnodar region and its capital. It is also the cultural, political and social center of the region. I should say that the city is really beautiful and many people from smaller towns and villages come to work and study here. What they like about the city is that there are lots of interesting things to do and places to see. They also like job and study opportunities. There are lots of good universities and large companies in Krasnodar. There are also many ways to spend the weekends, for example, visiting a museum, going to the cinema or theatre, shopping, eating in good restaurants, going to concerts, etc. If people want to relax they go to parks for a walk or to read a book. In general, the city offers various opportunities and you never get bored. However, there are some disadvantages as well. Sometimes it's difficult to find a cheap apartment, so living in a city becomes very expensive. The roads are full of cars which pollute the air and the traffic is really heavy on weekdays. Public transport is also over-crowded. That's why many people leave the city at weekends. They try to relax in the countryside, where the air is much fresher and there isn't any noise from cars. We also go away each Saturday and Sunday to visit my grandparents.

Вопросы:

1.Are there many universities in the city?

2.Is public transport over-crowded in the city?

3.What choice we do we have in the city?
